

Hello Class 2!

I hope you are all safe and well rested after the Easter break.

It is a strange start to the summer term but I know you will continue to support your child at home with their learning as you have been doing previously. Remember you are doing a great job and I am just a message away if you need anything at all.

I will continue to upload daily challenges to classdojo, therefore if you haven't already asked for your child's login details then please message me on the Facebook Page or email me

(h.hutton300@durhamlearning.net) and I will get you connected. Don't worry If you can't do this, I will also upload the tasks onto the facebook page.

Remember you should be trying to do a little maths, writing, reading and spelling each day. Also, don't forget to keep practicing your handwriting and times tables. If you have now mastered your 2's, 5's and 10's then you should practice the 3 times table. Although the work timetable is flexible, you should be trying to do an RE, Science, Geography and History task at least once a week. You should still have plenty to keep you going in your home learning packs for these subjects however, if you have completed my suggested tasks then you could do some work of your own related to the topics.

Keep an eye out as I will be uploading revision work for maths and tasks linked to a new class text. In the coming weeks I will also set a new project, to keep you busy.

I miss you all immensely but you really cheer me up when you send me your wonderful work so please continue to do so.

See you all soon.

Miss Hutton x
